LIFTS

SUMMIT ELEVATION: 11,500'
TOTAL VERTICAL RISE: 2,300'

- 6 PACK GRAND CANYON EXPRESS**
5,796' long
1,519' vertical rise
- 4 PACK HUMPHREYS PEAK**
3,030' long
775' vertical rise
- 6/8 COMBO ARIZONA GONDOLA**
6,450' long
2,000' vertical rise
- 3 PACK SUNSET**
2,675' long
654' vertical rise
- 4 PACK HART PRAIRIE**
2,660' long
539' vertical rise
- 2 PACK ASPEN**
1,600' long
250' vertical rise
- 1 PACK BIG SPRUCE CONVEYOR**
450' long
- 1 PACK LITTLE SPRUCE CONVEYOR**
150' long

Arizona Snowbowl operates under a special use permit from the Coconino National Forest.

OUT OF BOUNDS

WARNING! Snowbowl recommends that anyone exiting the ski area have a very strong knowledge of backcountry travel and safety equipment in avalanche terrain. Areas beyond the ski area boundary are unpatrolled and unmaintained. Avalanches, unmarked obstacles and other natural hazards may exist. Rescue in the backcountry, if available, will be costly and may take time. Pursuant to the Arizona Ski Safety Act, the ski area assumes no responsibility for the safety and welfare of skiers and snowboarders going beyond the ski area boundary. You are solely responsible for your own safety.

DRONE POLICY

Using drones at Snowbowl is not permitted. Those caught breaking the rules may have their drone confiscated, their skiing privileges suspended or could even be fined.

YOUR RESPONSIBILITY CODE

Common Sense, it's one of the most important things to keep in mind and practice when on the slopes. The National Ski Areas Association (NSAA) believes education, helmet use, respect and common sense are very important when cruising down the mountain. NSAA developed Your Responsibility Code to help skiers and boarders be aware that there are elements of risk in snowsports that common sense and personal awareness can help reduce.

Seven Points to Your Responsibility Code

- Always stay in control, and be able to stop or avoid other people or objects.
- People ahead of you have the right of way. It is your responsibility to avoid them.
- You must not stop where you obstruct a trail, or are not visible from above.
- Whenever starting downhill or merging into a trail, look uphill and yield to others.
- Always use devices to help prevent runaway equipment.
- Observe all posted signs and warnings. Keep off closed trails and out of closed areas.
- Prior to using any lift, you must have the knowledge and ability to load, ride and unload safely.

KNOW THE CODE: IT'S YOUR RESPONSIBILITY.
THIS IS A PARTIAL LIST.
BE SAFETY CONSCIOUS.

WARNING

Under Arizona Law, a skier accepts the risk of any injury to person or property resulting from any of the inherent dangers and risks of skiing, including changing weather conditions, existing and changing snow surface conditions, surface or subsurface conditions, whether marked or unmarked; collisions with natural or man-made objects, whether marked or unmarked and the failure of skiers to ski within their own abilities.

SKI PATROL

In case of an accident, place skis upright and crossed in the snow above accident. Report the accident to an Arizona Snowbowl employee at the base of the nearest lift or to any Ski Patrol member. Describe the location, the color of the person's clothing and the facts about the accident. If you are involved in an accident, you must report it and shall not leave the ski area/scene without providing your personal identification as required by the Arizona Ski Safety Act. Patrol has the authority to revoke ski privileges if the skier is in unauthorized areas, does not obey SLOW ZONES or commits any act that endangers himself/herself or others. Ski Patrol Line: (928) 779-1951
