WARNING: Downhill skiing, like many other sports, contains inherent risks including, but not limited to the risk of personal injury, including catastrophic injury, or death, or property damage, which may be caused by variations in terrain or weather conditions; or, surface or subsurface snow, ice, bare spots or areas of thin cover, moguls, ruts, bumps, or other persons using the facilities; or rocks, forest growth, debris, branches, trees, roots, stumps; or other natural objects or man-made objects that are incidental to the provision or maintenance of a ski facility in New York State. New York law imposes a duty on you to become apprised of and understand the risks inherent in the sport of skiing, which are set forth above, so that you make an informed decision of whether to participate in skiing notwithstanding the risks. New York State also imposes additional duties upon you, to which you must adhere, for the purpose of avoiding injury caused by any of the risks inherent in skiing. If you are not willing to assume all of these risks and abide by these duties, you must not participate in skiing in this area. (Article 18 of the New York State General Obligations Law) More info available at iskiny.com/explore-new-york/nys-ski-code.

FREESTYLE TERRAIN

Freestyle terrain areas are designated with an orange oval and may contain a variety of constructed or natural terrain features. Prior to using freestyle terrain, you are responsible for familiarizing yourself with the features and terrain and obeying all instructions, warnings, and signs. Freestyle skills require maintaining control on the ground and in the air. Use of freestyle terrain exposes you to the risk of serious injury or death. Inverted aerials are not recommended. You assume the risk.

Freestyle Terrain

This orange, oval symbol designates freestyle terrain such as parks and pipes. Smart Style represents freestyle terrain safety. Know it, respect it, use it!
